ABOUT ME

Information Systems undergraduate at the National Institute of Business Management with hands-on experience as an Intern Business Analyst at Softwatch InfoSys. Proven ability to bridge the gap between business needs and technical execution by managing banking software enhancements for CRB Bank. Skilled in requirement elicitation, system testing, and translating user feedback into actionable developer instructions. Passionate about leveraging Agile methodologies and stakeholder communication to deliver effective, user-centric IT solutions.

EDUCATION

- **BSc (Hons) in Information Technology for Business (Coventry University, UK) (NIBM)** (Ongoing)

- **Higher Diploma in Information Systems (NIBM)** (Apr 2025 – Apr 2026)
  Core Modules: Business Analysis, Agile & DevOps, Enterprise Resource Planning (ERP), Data Warehousing (DW), Data Management (DM2).

- **Diploma in System Design (NIBM)** (Mar 2023 – Apr 2024)
  Core Modules: Web technologies (Design, Development, HTML), the Internet of Things (IoT), problem - solving (Analytical Skills), databases (SQL), and essential software (Microsoft Office), preparing tech roles.

- **Certificate Course in Computer Science (NIBM)** (Aug 2022 – Feb 2023)
  Core Module: C programming, HTML, and Databases.

- **Secondary Education**
  Wesley College, Colombo 09 (Jan 2014 – Nov 2022)
  G.C.E.O/L Examination
  Successfully completed G.C.E. Ordinary Level examinations with best passes for Mathematics and English Language.

EXPERIENCE

Softwatch InfoSys (Pvt) Ltd (May 2026 – Present)

Intern Business Analyst

- Helped manage and improve banking software for CRB Bank.
- Acted as the primary communication between bank users and software development teams.
- Tested banking systems to detect bugs and ensure correct functionality.
- Analysed user complaints and translated operational issues into clear instructions for developers.
- Evaluated software usability and write simple guides to train bank staff.

SKILLS & COMPETENCIES

- **Business Analysis & Communication:** Requirement Elicitation, Agile/Scrum, User Stories, Stakeholder Communication, Cross-functional Teamwork, and Analytical Problem-solving.
- **Technical, Data & AI:** Oracle APEX AI, SQL (Server/MySQL), C, C#, HTML, CSS, MS Power BI, MS Excel, Business Intelligence, Data Warehousing, and Statistics.
- **Design, Modeling & Diagramming:** Figma, Draw.io, Wireframing, Process/Workflow Diagrams, ER Diagrams, and Use Case/Class Diagrams.

PROJECTS

- **Flash Stock Real-Time Auction Platform – Higher Diploma Final Project**
    - Conducted comprehensive feasibility studies and requirement elicitation to define the scope and functional requirements for a localized real-time auction system.
    - Designed detailed UML diagrams, including Use Case, Activity, and Class diagrams, using Draw.io to clearly visualize complex business workflows and data structures.

    Technology Stack: **Requirement Elicitation, UML Modeling, Draw.io, Figma, Agile Methodology, Business Process Mapping**

- **Fake Job & Internship Detection Platform – Agile Project**
    - Acted as a bridge between business needs and technical execution by translating high-level requirements into clear, actionable user stories with defined acceptance criteria.
    - Facilitated core Agile ceremonies (Sprint Planning, Daily Stand-ups, Sprint Reviews, Retrospectives) to ensure continuous team alignment and iterative product delivery.

    Technology Stack: **Scrum Framework, User Story Mapping, Backlog Management, Agile Ceremonies, CI/CD Concepts, Jira**

- **A Mobile App for Home Gas Cylinder Delivery – BA Project**
    - Conducted a comprehensive business environment analysis using strategic frameworks (SWOT/PESTLE) to identify operational inefficiencies and propose viable IT solutions.
    - Elicited, analyzed, and documented detailed functional and non-functional requirements to bridge the communication gap between business stakeholders and technical team.

    Technology Stack: **Requirement Engineering, SWOT/PESTLE Analysis, Draw.io, MS Office, Stakeholder Analysis**

ADDITIONAL INFORMATION

- **Languages, Certifications & Community:** Proficient in English and Sinhala; certified in Oracle APEX AI, Computer Science, and Oracle Cloud & Databases; and active member of the Rotaract NIBM committee (Aug 2025–Present) with experience in event organisation, community projects, and stakeholder communication.

Dear Hiring Manager,

I am writing to express my interest in a Business Analyst, Project Manager and QA Engineer opportunity within your organization. I am currently pursuing a Higher National Diploma in Information Systems at the National Institute of Business Management (progressing to a Coventry University degree), and I am eager to apply my academic knowledge and practical project experience in a professional environment.

I am currently gaining hands-on industry experience as an Intern Business Analyst at Softwatch InfoSys (Pvt) Ltd, where I help manage and improve banking software for CRB Bank. Acting as the primary communication link between bank users and software development teams, I test banking systems to detect bugs, analyze user operational complaints into clear instructions for developers, evaluate software usability, and write guides to train bank staff.

Through my academic journey and projects like the Flash Stock Real-Time Auction Platform, I have developed a strong foundation in business analysis, system design, and requirement elicitation. I have hands-on experience in gathering and documenting business requirements, authoring precise user stories, and developing end-to-end workflows and UI wireframes. My projects have strengthened my ability to translate complex business objectives into actionable technical requirements while maintaining clear communication with both technical and nontechnical stakeholders.

In addition, I have worked with tools and technologies such as Oracle, SQLite, Figma, and Draw.io, enabling me to support system design, database management, and project tracking activities effectively. My experience in performing gap analysis and modeling business processes aligns well with responsibilities such as maintaining product backlogs and supporting management reporting.

I have also demonstrated strong coordination and teamwork skills through Agile-based projects and my involvement in the Rotaract Club of NIBM, where I participated in sprint planning, backlog prioritization, and cross-functional collaboration. These experiences have prepared me to assist in stakeholder engagement and project follow-ups while managing multiple tasks efficiently.

I am particularly interested in contributing to your team by supporting process optimization, stakeholder communication, and cross-functional initiatives, while continuously learning and improving my skills.

I would welcome the opportunity to further discuss how my skills and enthusiasm align with your organization’s goals. Thank you for your time and consideration.

Yours sincerely,
Tharusha Pasan Hanwella
